

Contact our partners

Reach out to any of the following partners to talk about their experiences with Islandora and PALS services.

Anne Stenzel: anne.stenzel@mnsu.edu, Minnesota State University, Mankato

Anne Stenzel is always happy to talk about Islandora. She facilitated a discussion on workflow sharing at the Islandora Workday in April 2017, held at Minnesota State Mankato. Please find her slides [here](#).

Pam Gladis: Pam.Gladis@smsu.edu, Southwest Minnesota State University

"This (digital asset management solution) is a great way to connect with alumni, and the search capabilities make it so effective for university historical research. The most valuable aspect for me has been finding ways to connect with others across campus; it's been a great way for the library to take the lead on the University's digital initiatives."

Heidi Johnson: hjohnso2@css.edu, The College of St. Scholastica

"Allowing access to the history of the institution is an important part of fostering community and growing the mission."

Heidi presented with Alex Kent and Linda Richter at the Minnesota Library Association Conference in 2016. See our slides [here](#).

Vi Bergquist: VBergquist@sctcc.edu, St. Cloud Technical and Community College

"It (digital asset management) is totally worth it. 50 years from now people are going to be glad we took the time to preserve our digital assets. We are ingesting a wide variety of documents, such as historical photos, accreditation, campus facilities plan, strategic planning documents, photos of college events, and videos about the college."

[Here](#) is a link to a presentation that Linda Richter and Alex Kent did with Vi Bergquist at the 2017 Minnesota State IT Conference.
